

Let's begin with the first part of the calculation
the first part of the calculation is 10,25 of the total
the second part of the calculation is 10,25 of the total
the third part of the calculation is 10,25 of the total
the fourth part of the calculation is 10,25 of the total
the fifth part of the calculation is 10,25 of the total
the sixth part of the calculation is 10,25 of the total
the seventh part of the calculation is 10,25 of the total
the eighth part of the calculation is 10,25 of the total
the ninth part of the calculation is 10,25 of the total
the tenth part of the calculation is 10,25 of the total
